

Philosophy

I have established a small practice with a personal touch. It is state-of-the-art medicine including email access. I have spent quite a lot of time looking at different models of practice, especially one where patients have increased access to their physician when they need it. I have also attended several national meetings which dealt with the application of technology in Family Medicine. I have built a practice where you feel taken care of and listened to. The relationship I have with you is very important to me and I want to make sure that you know it all the time. This is not "old-fashioned" medicine, it is "new-fashioned" medicine. And it is about time.

Directions

Where is the Courtyard? It is centrally located on the northbound side of Route 206 just 1.5 miles south of the Somerville Circle, approximately 3 blocks south of South Bridge Street, or 2 blocks north of Duke's Parkway. I am in Suite 211. See below for more specific directions.

Once you enter The Courtyard...

At the end of the driveway, turn right as you face the directory. Then make a quick left and park. The office is in the corner of the building.

From the north:

Proceed down Route 206 South past the complex and Duke's Parkway, and make the Brown Ave U-turn by the Days Inn. Travel north back up Route 206 past Temple Beth-El and the Dukes Parkway jug handle. You will see a sign "The Courtyard". Make a right into the driveway and follow the instructions above.

From the south:

Travel north on Route 206 until you are almost out of Hillsborough. Shortly after the Dukes Parkway jug handle you will see a sign "The Courtyard". Make a right into the driveway and follow the instructions above.

From the east:

Proceed down Main Street in Manville. Just after the Wal-Mart make a right turn onto Brooks Boulevard (there is a QuickChek on the corner). Travel down to Route 206 and make a right onto Route 206 North. Shortly after the Dukes Parkway jug handle you will see a sign "The Courtyard". Make a right into the driveway and follow the instructions above.

"Family Medicine the way it should be"

About Dr. Corson

Dr. Corson received his Bachelor of Science and Master of Science from Rensselaer Polytechnic Institute. He graduated from Robert Wood Johnson Medical School and completed his residency in Family Medicine at Somerset Medical Center. He is a fellow of the American Academy of Family Physicians and has been repeatedly certified by the American Board of Family Medicine.

Dr. Corson has more than 20 years of experience in the practice of Family Medicine.

His accomplishments include:

- Past President, Medical and Dental Staff of Somerset Medical Center
- Past President, New Jersey Academy of Family Physicians
- Past member of the Board of Directors of Somerset Medical Center
- Delegate to the American Academy of Family Physicians Congress of Delegates
- Member of the AAFP Commission on Continuing Professional Development
- Assistant Professor of Family Medicine at Robert Wood Johnson Medical School

About Dr. Pallay

Robert M. Pallay, M.D., F.A.A.F.P., has been practicing Family Medicine in Hillsborough for almost 30 years. He is a member of the board of directors of the American

Academy of Family Physicians (AAFP) where he is working on a patient-centered health care system that will establish universal coverage for all Americans. Dr. Pallay is a past Chair of the New Jersey Public Health Council.

Dr. Pallay earned his bachelor's degree with honors from Northwestern University, Evanston, Ill. He earned his medical degree at Northwestern University Medical School, Chicago, and completed his residency at Somerset Medical Center, Somerville, N.J. He was recently Vice-Chair of the Department of Family Medicine at Robert Wood Johnson Medical School and holds the rank of Associate Professor.

Dr Pallay is dedicated to his patients. He merged his practice with that of Dr Corson because they share many philosophies, including that patients come first. He is a true family doctor.

Family Medicine

Family Medicine is the medical specialty which provides **continuing and comprehensive health care** for the individual and the family. It is the specialty which emphasizes the science and the art of medicine. The scope of Family Medicine encompasses all ages, both sexes, each organ system and every disease entity.

We believe that continuity of care is important, especially when you are sick enough to need hospitalization. That is why we will take care of you should you need to be hospitalized, managing your general medical problems while coordinating any sub specialists that may be needed for your care. On discharge, we will continue care for you at one of the many sub acute rehabilitation facilities to which we go. After discharge, we will come to your home if needed.

Healthcare Facilities
